PROFILE

Hello, I'm Burak, I've always had an interest and enthusiasm for software, and I've worked in various companies as a software developer for the last two years. I continue to improve myself every day. I am a curious and ambitious person who likes to research. While writing code, I pay attention to SOLID principles and writing clean code

SKILLS

- **Programming Languages**: C#, Java, JavaScript, SQL, Dart
- **Programming Frameworks**: .Net, Spring, Angular, jQuery, Flutter
- **Technologies**: RESTful APIs, Microservices, Docker, Linux, Git, TypeScript
- **Languages**: English (Professional working competency), German (Limited working competence), Turkish (Native)

EXPERIENCE

- **Fenomio** — Istanbul,Turkey — 01/2022 - 04/2022
  Full Stack Developer(Contract) – Asp.Net Core

PROJECTS

- **Dormitory**: This is a project that I wrote voluntarily, inspired by my dormitory life, due to the needs of the dormitory where I stayed at university, and which they are now using in the dormitory.
- **E-Commerce**: It is a project that I started to write and be influenced by e-commerce businesses that are today's essentials .At the same time, I apply the new technologies and algorithms that I learned in this project.
- **Rent a Car**: It is a project that I wrote in order to better understand personal development and multi-layered architectural structure when I started software.

EDUCATION

- **Bandırma Onyedi Eylül University** — Balıkesir,Turkey — 09/2019 – 06/2023
  BSc; Management Information Sytem; GPA:4.0/3.5 (88.33/100)
